

Help Wanted for Autism Tasmania Study

Autism Tasmania through the HCWA initiative, is conducting research into family experiences with Autism in the 0-16 age group in Tasmania and we are looking for participants.

The project aims to establish the extent and diversity of the ASD community in Tasmania and to determine requirements in terms of services and support. This is with a view to improving the access to current services and planning the development of future support.

Your participation in this project would involve filling out a questionnaire which is divided into 3 parts, including demographic information and diagnosis, service provision, and school years.

If you wish to help and to find out more about the survey please contact:
