

Autism Tasmania Peer Networks

Our Peer & Social Program consists of:

Peer Support the Autistic Way (PSAW)

Peer groups that aim to provide meaningful ways for autistic adults to connect with each other. The groups are co-designed by autistic adults and facilitated by them.

Community Led Groups

Peer groups for parents, carers and family members. Some include children with an accompanying parent/carer. Groups are led by autism community members and are supported by Autism Tasmania.

Events

Including quarterly Hobart Airport Tours, statewide Drop In Sessions and one off events

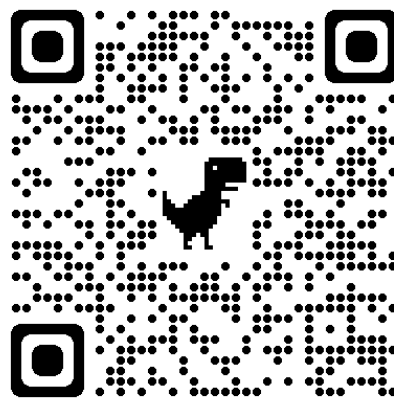

To learn more visit:

<https://www.autismtas.org.au/services/peer-networks/>

Our peer networks are a informal, non-therapeutic peer groups that meet regularly in an inclusive space. They are opportunities for our autistic community to be themselves, have fun, support each other, share interests and skills whilst embracing autistic culture.

Our groups are facilitated by autistic adults or autism community members who are passionate about the benefits of peer support and building community.

Register Your Interest!

Registered members are contacted, first priority, when groups have openings or new groups commence

Autism Tasmania Members Facebook Group

This online group aims to help support our members by being a safe space to ask questions, give information, offer support and build community:

www.facebook.com/groups/892209651193100/

Our peer groups are either:

- **Open** – anyone can attend / new members welcome
- **Closed** – the group is at capacity and you are welcome to register for the groups waitlist for when a vacancy becomes available

Our facilitators advise if the groups are open or closed. This is to ensure we do not overload our members or facilitators and maintain a safe and supportive culture. It also helps make sure the groups are sustainable long term.
